

# Fall/Winter Collection 2025-2026

## Highlights

Nowadays all the world of communication is focused on the theme of sustainability in all its forms and facets.

Reaching this goal , 3C Company offers:

- raw, bleached, piece-dyed or ready-to-garment fabrics, made entirely with organically grown cotton yarn, GOTS certified

We have been certified GOTS

- fabrics made with colored cotton yarn, regenerated by fraying of colored scraps, mixed with virgin cotton for its capacity to be spun into yarn (Ecotec)

-fabrics made with post-consumer regenerated colored cotton yarns:

40% recycled 60% bci,

70% recycled 30% bci

50% recycled 50% organic DENIM

In the collection we have plain fabrics such as single jersey, piquet, double, fleeces and also patterned fabrics such as jacquard, accompanied by relevant documentation.

**The presence of wool processed with polyamide and cotton recalls the historical traditions of winter products.**

The pattern is offered in jacquard fabrics, embossed and plain with lamé inserts and in plain or striped "aercore" tubular fabrics, with a lamé side.

Last but not least , New stretch "**space**" fabrics , also two-tone reversible for sweatshirts and outerwear.

### THIN: the thinnest...

	<p>The products made out of very thin yarns by very thin knitting needles, offer an excellent cover up and consistency with exiguous weights. Belonging to this series are fabrics stretched or not, made out of natural fibers so far as synthetic and artificial fibers. The versatile "Thin" series includes cottons, viscose, micromodal, polyammide and polyester, which can easily find their applications within underwear, shapewear, performance/technical sportswear and fashion garments.</p> <p><b>6566/A/PR/R</b>                      <b>6564/A/PR/R</b></p>
